It looks the discussions between the state of Montana and the PRPs at the Columbia Falls site have ceased and based upon this newspaper article, the state is supporting moving forward with an NPL listing.

Should we let Rich Mylott know? Do you expect press inquiries from Hungry Horse news?

All:

At approximately 11:00 a.m. today, Bill Kirley heard from Andrew Otis (CFAC's legal counsel) that CFAC would not be able to agree to the terms DEQ required in its AOC. Andrew indicated that CFAC would be issuing a press release this afternoon. CFAC did not share the content of its press release. DEQ left voice-mail messages with Victor, Rob, and Mark. If any response is necessary to the CFAC press release, I believe the public meeting on Thursday will provide a good forum, and the agencies have joint talking points to assist. Please let me know if you have questions. Thanks!

Denise

FYI - Virginia Sloan with Sen Tester's office has been told that Glencore will be issuing a press release today. This is the first I've heard of this. She's not (and I'm not) sure of the content. Have you guys heard anything about this?

Thanks,  
Rob

We had a call from Haley Beaudry, former public affairs for Glencore and CFAC. He said he will be issuing a press release today on behalf of Glencore. . He is not sure of the content, Wondering if you know anything about what they might be up to!

Thanks and see you on Thursday.
